-

PROJECTS

1. AUDIOAVENUE - Online Audio Streaming Web Application

 [Live Link](#)

Technologies: React.js, Node.js, Express.js, MongoDB

- Designed and developed AUDIOAVENUE, an online audio streaming web application featuring a comprehensive set of functionalities tailored for music enthusiasts. The application includes a sleek and intuitive user interface built with React.js on the frontend, coupled with a robust backend powered by Nodejs and Express.js and MongoDB Atlas for efficient data storage.
- Developed an ADMIN panel allowing administrators to dynamically manage the music library by adding or removing songs directly from the frontend application.

2. PORTFOLIO WEBSITE

 [Live Link](#)

Technologies: HTML, CSS, JAVASCRIPT

- Created a portfolio website using HTML, CSS, and JavaScript, It serves as a platform to introduce myself, share my projects, and provide information about my education and certification.
